

## Trust Forward Advantage with Your Scanned Images and Archives as You Migrate to MEDITECH's Scanning and Archiving

Customers migrating to MEDITECH's Scanning and Archiving (SCA) from a legacy system may have years' worth of archived and scanned documents that must be converted to meet business requirements.

# Document Imaging & Scanning Conversion

## The Solution

Forward Advantage provides complete project management to meet all of your document imaging and scanning conversion needs as you migrate from a third-party solution, like Blue Chip or Valco. Standard import formats for converted data is provided by MEDITECH, and Forward Advantage handles the rest, including: project management, data analysis, conversion setup and installation, testing, go-live, and post go-live cleanup.

## Efficiency with a MEDITECH-Approved Vendor

Forward Advantage executes the migration process using a proprietary tool that helps ensure efficiency and accuracy. We work closely with MEDITECH by effectively adapting to each of their conversion tasks and by closely monitoring their implementation go-live schedule. Our goal is to migrate your documents as efficiently as possible once they are ready to go live.

### Key Features:

- Complete project management
- Uses a proven, proprietary tool for efficiency and accuracy
- Based upon MEDITECH integration experience
- Migrates images from Blue Chip and Valco, along with other third-party vendors
- Migrate to MEDITECH EMR or ELR based on preferred workflow and MEDITECH recommendation

## Add Optical Character Recognition to MEDITECH's Scanning and Archiving

Organizations migrating to MEDITECH's SCA application should consider Find-It, Forward Advantage's tool for optical character recognition. Available to MAGIC, Client/Server, and 6.0 customers, Find-It is a MEDITECH-approved solution designed to provide search functionality for scanned documents. Please refer to the Find-It product sheet, or contact a Forward Advantage Sales Representative for additional information.
