

The Storage Solution to Retain Your MAGIC Office Documents with the Functionality You Value

MEDITECH hospitals have years' worth of documents stored in MAGIC Office, including saved e-mails and important policies and procedures. Users have invested time in writing, organizing, and sharing these documents, which they want to retain in a familiar system when they migrate to 6.0.

The Solution

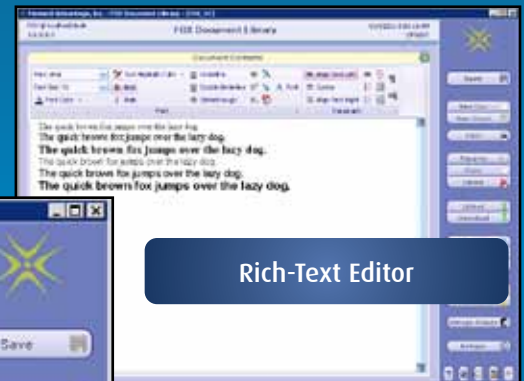

Forward Advantage Office (FOX) provides a familiar and intuitive document library system for MEDITECH customers migrating from MAGIC Office. Forward Advantage extracts everything from MAGIC Office, including: user profiles, distribution groups, cabinets, drawers, files, and permissions for sharing. After this information is extracted, it is then migrated to the FOX Document library where users can access this information exactly as they had previously, but with the benefit of enhanced functionality.

Benefits

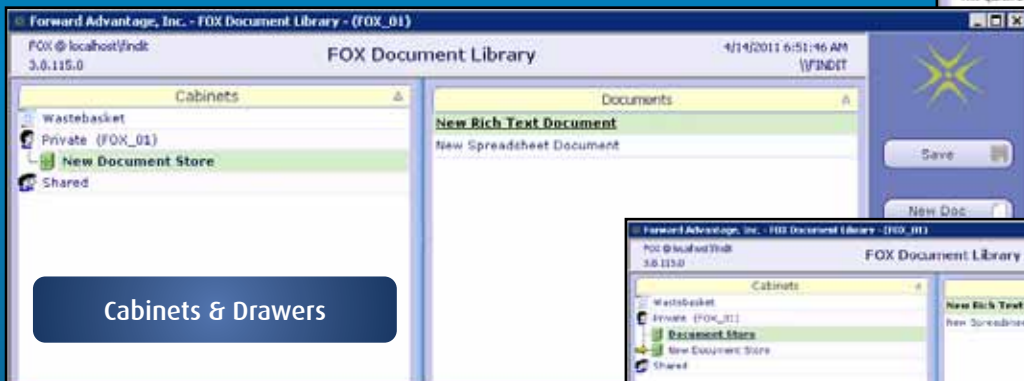

A streamlined migration to FOX Document Library maintains end user workflow, and the system's familiar design and MAGIC Office terminology minimize stress associated with a major transition. Users can easily store and manage migrated and new documents, and database storage on the FOX server safeguards documents for backup and recovery.

Key Features:

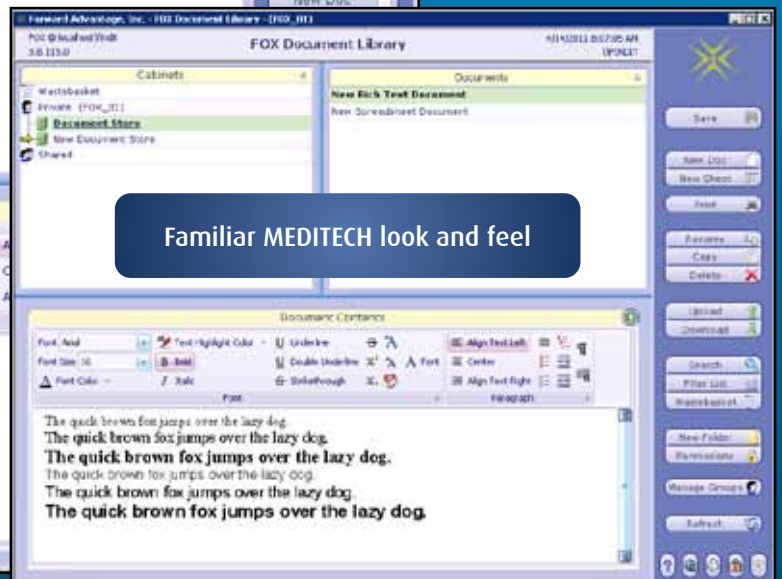

- Intuitive file collaboration and management system
- User interface offers a MEDITECH 6.0 look and feel
- Easily navigate and view your documents stored in cabinets and drawers
- Indexed document contents enable advanced full-text searching
- Supports full rich-text editing, including font change, bolding, and bullets
- Supports printing to any printer (local or network)
- Move documents with the ability to drag-and-drop

Rich-Text Editor

Cabinets & Drawers

Familiar MEDITECH look and feel
