

Retain Your MAGIC Office Investment as You Migrate to MEDITECH 6.0

Hospitals migrating to MEDITECH 6.0, or looking to move away from MAGIC office, want to retain their existing MAGIC Office documents and e-mails. A streamlined migration is the key to efficiently implementing a new system; however, many hospitals find a MAGIC Office migration to be a difficult process and a strain on internal staff.

The Solution

Organizations can preserve their MAGIC Office investment with Forward Advantage's migration services. A long-standing MEDITECH affiliate, Forward Advantage has years' worth of experience integrating with MEDITECH. Whether your organization chooses our Forward Advantage Office (FOX) Mail and Document Library solutions, or a third-party solution, we can lend our MEDITECH expertise. Identifying which documents to extract and migrate can be an overwhelming process. Forward Advantage helps you identify, extract, and migrate your documents and messages with minimal resource involvement from your team. The result is a streamlined migration with a reduced implementation timeline.

Services:

- Translate e-mail and office automation documents to a format accessible for access via a variety of third-party products
- Choose to integrate your investment with Forward Advantage's FOX Mail and FOX Document Library to retain the familiar functionality you value
- Interim and long-term solutions to replace MAGIC Office Messaging and Document Library

Benefits:

- Streamline your migration by eliminating labor-intensive and time-consuming manual processes
- Preserve your MAGIC Office investment by maintaining access to e-mails and documents
- Be up and running quickly and efficiently
- Receive Forward Advantage's customer-acclaimed support
- Choose FOX to maintain document formatting, permissions, and securities
