

Secure Texting and Messaging Connectors

For Communication Director

*Secure, innovative
messaging to improve
patient care*

Integrating Communication Director and secure messaging platforms to automatically deliver HIPAA-compliant notifications to smartphones, tablets and PCs

Forward Advantage created the **Secure Texting and Messaging Connectors** to integrate **Communication Director** with secure messaging platforms. This API-level integration provides the convenient and efficient delivery of information to almost any smartphone, tablet and desktop. Critical data from any EHR, such as Admission, Discharge, Transfer (ADT) statuses, critical lab values, and consult orders are sent automatically to improve the coordination of patient care.

It's truly information that finds the right person, at the right time.

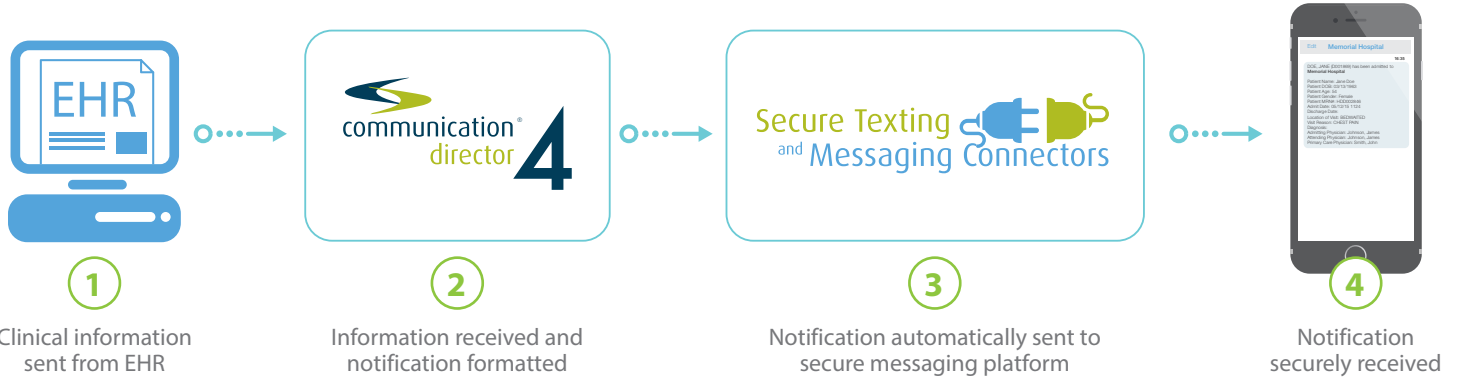

Forward Advantage Secure Texting and Messaging Connectors for Communication Director enable the automatic delivery of critical information to almost any smartphone, tablet or PC.

Secure Texting
and Messaging Connectors

"I've implemented a lot of things over the years, and this has had the biggest impact for the least amount of money. Our nurses and pharmacists don't have to spend hours tracking doctors down, and the doctors can be anywhere and put a quick response in."

- Loretta Mann, CIO, Beverly Hospital

Communication Director is a leading information exchange platform for healthcare. Featuring Forward Advantage's proprietary SmartRoute technology, Communication Director sends communications by intelligently determining the appropriate recipient and delivery preferences. **Hospitals, physicians and patients benefit from fast, efficient and reliable health information exchange – and now integrated with secure messaging platforms, Communication Director can securely send automated reports and notifications to almost any smartphone.**

Talk to us about a connection to your secure messaging platform.
