

# OPTIMIZE MEDITECH WITH COLLABORATIVE SOLUTIONS FROM FORWARD ADVANTAGE

*The 20+ year collaboration between Forward Advantage and MEDITECH helps clinicians and other hospital staff access important information from MEDITECH when and where they need it.*

- Key market-leading solutions and services:
- Automated report distribution and information exchange
- Identity and access management
- Virtualization optimization
- Data preservation and migration
- Patient engagement & mobile apps

## Get the Right Information to the Right Person from Your MEDITECH System

- **Communication Director** – Automate the secure delivery of clinical reports and other information from MEDITECH. Care teams are notified, with their preferred communication method, of important PHI such as lab results, radiology reports, ADT notices, and more.
- **Cloud-Based Faxing** – The CloudFax Connector provides high reliability plus the added benefit of on-demand scalability without the need to add additional capacity. Plus, you don't have to choose between traditional faxing or cloud.

## Maximize MEDITECH in a Mobile Environment

**Forward Advantage is MEDITECH's preferred provider and authorized reseller for leading identity management & mobility solutions from Imprivata, VMWare & SailPoint.**

- **VDI Services** – Virtual Desktop Access enables MEDITECH hospitals to leverage the full benefits of their EHR and virtualization technology investments. Utilize Forward Advantage's experienced team to assess your specific needs and clinical workflow

to deliver solutions with end-to-end support that ensure the success of your providers and virtual desktop strategy.

- **Imprivata Mobile** – Encourages the adoption of shared devices by enabling fast, secure access to clinical mobile devices and applications. Integrates seamlessly with Imprivata OneSign and leading mobile devices including Ascom, Honeywell, Zebra, and others.

## Manage Identities & Access

- **Imprivata OneSign** – A password management system that provides fast and secure authentication and access. OneSign eliminates the need to remember and enter application usernames and passwords time and time again, permitting faster access to patient information.
- **Imprivata ConfirmID** – A comprehensive, multifactor authentication platform for fast, secure authentication and signing across all enterprise workflows. This includes remote access, medical devices, electronic prescribing of controlled substances (EPCS) and other clinical workflows –

using methods such as Hands-Free Authentication, push-token notification, and fingerprint biometrics.

- **Identity Governance Administration (IGA)** – Enhance onboarding while improving security, auditability, reporting, and user identity management – all from a centralized location. Forward Advantage experts will provide objective guidance throughout your IGA journey (from planning, decision making, implementation and beyond) to help you select the right solution and ensure your identity objectives are met long into the future.

## Migrate and Preserve Legacy Data

- **MEDITECH Expanse Migration** – Take the weight off your IT staff by completing your MEDITECH migration with help from Forward Advantage. With the necessary resources and MEDITECH experience, Forward Advantage has developed a unique set of tools and processes that can help you reach your goals faster and more cost-effectively.
- **Document Imaging and Scanning Conversion** – Forward Advantage helps MEDITECH hospitals preserve existing scanned images and MEDITECH archives as they migrate to the latest version of MEDITECH Scanning and Archiving.

## Improve Workflow Efficiencies

- **RapidFiler** – Streamline the importing of documents into MEDITECH's EHR to ensure a complete patient record. Inbound faxes no longer need to be printed and scanned, which reduces manual processes, expense, and potential errors.
- **Bed Stat** – Housekeeping can easily and efficiently update MEDITECH's Bed Board by simply using a telephone. Bed Stat uses interactive voice response for reporting bed status information in real time. This maximizes bed turnaround time for increased revenue and more efficient care.
- **Find-It** – Easily locate scanned business office documents with optical character recognition for MEDITECH Scanning and Archiving.

FORWARD ADVANTAGE HAS DEVELOPED A UNIQUE SET OF TOOLS AND PROCESSES THAT CAN HELP YOU REACH YOUR GOALS FASTER AND MORE COST-EFFECTIVELY.
